Research on Energy Issues in China

By Zemin Jiang

Hardback. Book Condition: New. Not Signed; China's rapid economic expansion raises questions internally and externally about how it will acquire the energy it needs to sustain growth. Currently, it is the largest producer and consumer of coal; how much will it continue to rely on its abundant natural resource in the face of increasing environmental concerns? Will it embrace new clean coal technologies developed by others or invest in its own? Currently it imports 50 per cent of the oil it consumes; will it invest in technologies that scrub the ocean floor for petroleum deposits? Will it develop new distribution technologies to bring its natural gas reserves closer to population centers? What role will conservation play? And how will China relate to the rest of the international community as it addresses these critical issues. Research on Energy Issues In China presents one prominent insider's view of China's key energy issues and his strategy for addressing them. A collection of papers authored by Jiang Zemin, former president of the People's Republic of China, it appears here in English for the first time. Jiang's message is an exhortation to the Chinese to invest in science and technology, and research and development, to...
